

## SOLVES YOUR PROBLEM WITH MESSY CABLES

Our cable straps are permanently mounted on the cable in order to always be in place when you need it. Cable straps can also be manufactured as text straps giving you a marking of the cable so that it is clearly visible who owns it.

Cable straps are made in both 20 and 25mm width. You can also get the cable straps with a convenient handle for easy carrying. It is also possible to use our cable straps for other things than cables, such as garden hoses.

### Easy to assemble and always stays in place!

#### Art. 162 CABLE STRAPS WITH HANDLE

2-pack 25mm x 0,5m with handle. 400 kg.

Also works well to use as a normal lashing strap.

At [www.fasty.se](http://www.fasty.se) you can find videos with examples how you use our cable straps.

The buckle has a big opening. Very easy to thread the strap - even with gloves on.
